INTERNSHIP

- Python Full-Stack Developer Virtual Internship | Edu Skills | [Certificate](#)**
- Built web applications using Python, Django, HTML, CSS, JavaScript, and MySQL.
 - Developed REST APIs and integrated frontend components with backend services.
 - Applied concepts of OOP, DBMS, and SDLC in real-world development scenarios.
 - Collaborated on project-based assignments involving full-stack application development.

PROJECTS

- AI Job Portal | Full-Stack Project | <https://ai-job-prtal-uday.netlify.app>**
- Developed a full-stack job portal using Django, React, MySQL, and REST APIs.
 - Implemented user authentication, job posting, application tracking, and profile management features.
 - Designed backend APIs for candidate-job matching and efficient data handling.
 - Built a responsive and user-friendly interface optimized for desktop and mobile devices.
- Student Management System | Full-Stack Project | <https://uday-student-management-system.netlify.app/>**
- Built a full-stack web application to manage student records with complete CRUD functionality.
 - Developed REST APIs using Django REST Framework and integrated them with React frontend using Axios.
 - Implemented student registration, update, deletion, and search features with real-time data rendering.
 - Managed database operations through Django ORM and MySQL.
 - Applied responsive UI design using Bootstrap and React functional components.
