INTERNSHIP EXPERIENCE

Python Full-Stack Developer Virtual Intern — Edu Skills

Certificate

- Built full-stack web applications using Python, Django, HTML, CSS, JavaScript, and MySQL in an Agile, deadline-driven project setting.
- Developed and consumed REST APIs, integrating frontend components with backend services.
- Applied OOP, DBMS, and SDLC principles to real-world development scenarios, strengthening debugging and code-quality practices.
- Collaborated with peers on project-based assignments, communicating progress and blockers in a team environment.

PROJECTS

AI Job Portal — Django, React, MySQL, REST APIs

[Live: ai-job-portal-uday.netlify.app](https://ai-job-portal-uday.netlify.app)

- Developed a full-stack job portal with authentication, job posting, application tracking, and profile management.
- Built REST APIs and integrated frontend/backend components for efficient, real-time data handling.
- Implemented a responsive UI and database-driven workflows using Django ORM and MySQL.

Student Management System — Django REST Framework, React, MySQL [Live: uday-student-management-system.netlify.app](https://uday-student-management-system.netlify.app)

- Developed a CRUD-based student management application with real-time data rendering.
- Created REST APIs using DRF and integrated them with React through Axios.
- Implemented search, update, registration, and deletion features with optimized database queries.
