Career Summary

Aspiring Full Stack Developer skilled in Python, Django, React, and SQL with experience building scalable web applications and REST-based systems. Passionate about solving real-world problems through clean architecture and efficient software design. Seeking an Associate Software Engineer role.

Technical Skills

- 1 Programming Languages: Python, JavaScript
- 2 Frontend: React.js, HTML5, CSS3, Bootstrap
- 3 Backend: Django, REST APIs
- 4 Database: MySQL, SQL
- 5 Computer Science Concepts: Data Structures, OOP, DBMS, SDLC
- 6 Tools & Technologies: Git, GitHub, VS Code, MS Excel

Projects

AI Job Portal | Full Stack Web Application

Developed a full-stack AI-based job portal using Django and React with user authentication, job listings, and application management features. Designed backend APIs for candidate-job matching and implemented MySQL database integration. Built responsive UI for cross-device usability.

Portfolio Website | Personal Developer Portfolio

Designed and deployed a responsive portfolio website showcasing projects and technical skills. Implemented modern UI/UX principles and optimized performance for cross-browser compatibility.

Education

B.Tech – Electrical and Electronics Engineering

Santhiram Engineering College

CGPA: 7.3 / 10 | Expected Graduation: June 2026

Relevant Coursework: Data Structures, DBMS, Software Engineering, OOP

Certifications

- 1 Python Full Stack Developer Virtual Internship — EduSkills
- 2 Data Engineering Virtual Internship — EduSkills & AWS Academy

Achievements

- 1 Developed multiple deployed web applications with live hosting.
- 2 Active GitHub contributor showcasing full-stack development projects.
- 3 Built end-to-end applications including frontend, backend, and deployment.

Soft Skills

- 1 Problem Solving
- 2 Analytical Thinking
- 3 Debugging
- 4 Team Collaboration
- 5 Adaptability
